

“Providing a highly valued agricultural product that is produced in a professional, cost-effective, and sustainable manner”

EMS • ELEMENT 6 • GOALS

ANNUAL REVIEW of OPEN EMS GOALS

February 26th, 2018

Goal 2: Reduce volume of semi-truck loads of biosolids fertilizer product being transported between the WWTF and recycling sites from 2,500 to 800 trucks per year by 2020.

Objective 2.9: Updated the Action Plan for Objective 2.9.

Goal 4: Implementation of Maintenance Program (ER Portal)

NEW Objective 4.8: Add NR2 Equipment as assets into ER Portal.

Goal 5: Improve communications with all interested parties or those affected by the City’s Biosolids Management activities.

NEW Objective 5.5: Develop a survey that can be distributed to interested parties or the public by end of 2019. Use the results from the survey to improve public involvement in annual goal setting by 2020.

Goal 6: R2E2 (GSP2) program improvements to increase optimization of Biogas and reduce overall consumption of purchased energy/ fuel.

NEW Objective 6.6: Optimize the biogas system to maintain generator running at highest capacity.
