

Water Treatment Facility Advanced Process Improvement

March 2021

*The Water Treatment Facility is staffed 24/7/365. For inquires or construction-related emergencies, please call (320) 255-7225.*

## CONSTRUCTION PROGRESS

Second stage lime softening structural rehabilitation complete, and in service. New walls have been created for the chiller room, which will be able to keep up with all cooled areas on the hottest days of summer. The ozone tunnel has been formed and poured.

### FAQs

A construction website was created. The website has additional project information. Please use this link.

<https://ci.stcloud.mn.us/WaterProject>

The Webcam link is also on the Construction Website. Please click on that link for a live look at the construction project.

**How will you secure the construction site?** Inside the construction zone, additional fencing has been placed to secure the excavation site. **All pedestrian and biking traffic needs to stay on the sidewalk.**
