

Water Treatment Facility Advanced Process Improvement

July 2021

The Water Treatment Facility is staffed 24/7/365. For inquires or construction-related emergencies, please call (320) 255-7225.

CONSTRUCTION PROGRESS

The building membrane replacement is a detailed step process, to ensure a water tight seal, with adequate water drainage. Membrane replacment completion goal is this fall, so Hester Park will have full access spring 2022.

The lower level exterior wall is being built, with a few more rows of block to place. By extending the building, it will allow for larger maintenance shop, staff training room and lab spaces.

FAQs

A construction website was created. The website has additional project information. Please use this link.
<https://ci.stcloud.mn.us/WaterProject>

The Webcam link is also on the Construction Website. Please click on that link for a live look at the construction project.
